Mark Akritas

Data Scientist, AI/ML Engineer

markakrita@gmail.com | +374 91 10 44 55 | github.com/markakritas

WORK EXPERIENCE

AI/ML Engineer
Advance2000 - Cloud Private Infrastructure

11/2025 - Present

LLM fine-tuning using LoRA. Private AI assistant system like ChatGPT with web search, RAG and agentic features. Voice AI agents for call centers. Codebase and task management across team for multiple projects.

AI Engineer
NewLevelWork - AI Coaching, Leadership & Development

01/2025 - 11/2025

Development of LLM/voice based chatbots, agentic workflows, RAG, document parsing, REST APIs etc.

Data Scientist / ML Engineer
NobleScripts - AI & Web Dev

06/2020 - 05/2026

Research, Machine Learning, Signal Processing, REST API development, Data Collection, Pipelines, Deployment, Codebase & task management etc, long term maintanence.

Data Scientist / Statistician
ClinStatDevice / ClinSoft - Bioinformatics

06/2019 - 06/2020

Design of Experiments, Randomization, Simulation, Mixed-effect modeling, Advanced visualization, Dashboard development, Report automation etc.

OTHER EXPERIENCE

Teaching Associate (01/2021 - 05/2021)
Programming for Data Science course at American University of Armenia (Teaching Python & R programming languages)

Research Assistant (07/2020 - 03/2021)
PDRF Skill mismatch research - survey preparation, data analysis

EPIC Startup Program (01/2020 - 06/2020)
MetaStyle - text style transfer using ML

Participation in AI Incubator Program - Hero House (07/2019 - 10/2019)
Expper Tech. (Robin the Robot): Human-Robot interaction research, Emotional response system prototyping

Internship in IT Department - Veon Armenia (09/2018 - 11/2018)
SQL Reports, Natural Language Processing

Digitalization of Accounting - Wikimedia Armenia (06/2017 - 08/2017)

Accountant - in companies from IT, commercial and public sectors (08/2015 - 09/2017)

Judicial acts specialist (03/2014 - 08/2015)

Service in Armed Forces of RA (12/2011 - 12/2013)

SKILLS

Data Engineering | REST APIs | LLMs | Dashboards | Machine Learning | Git | Docker | PyTorch | sklearn | Linux | vLLM | LiveKit | Pydantic | kreuzberg | RAG | weaviate | uv | searXNG | elevenlabs | deepgram | ruff

PROGRAMMING

Languages

- Good knowledge of **Python**
- Good knowledge of **R** programming
- Intermediate **SQL** skills
- Basic knowledge of **HTML** \ **CSS** & **JavaScript**

EDUCATION

Master in Industrial Engineering and Systems Management
American University of Armenia

09/2017 - 06/2020

Concentration / Capstone

- Data Analytics / Temporal Data-Based Anomaly Localization in Networks

Bachelor in Crisis Management
Armenian State University of Economics

09/2010 - 06/2016

Thesis

- Spatial development in Republic of Armenia

LANGUAGES

Armenian
Native or Bilingual Proficiency

English
Full Professional Proficiency

Russian
Native or Bilingual Proficiency

Greek
Limited Working Proficiency

INTERESTS

History | Music | Linux Ricing | Philosophy
